

Japan Real Estate Investment Corporation

SEMIANNUAL REPORT

March 2017

For the period from October 1, 2016 to March 31, 2017

Profile

Japan Real Estate Investment Corporation ("the Company") was established as one of the first real estate investment corporations in Japan following revisions to the Act on Investment Trusts and Investment Corporations of Japan, as amended, or the ITA. Its investments focus primarily on office buildings, and it is aiming to maintain geographical diversity while seeking stable growth and dividends in the medium to long term. The Company was listed on the Tokyo Stock Exchange on September 10, 2001 (Securities Code: 8952).

Note: Investment corporations, including the Company, are special legal entities incorporated and operated under the ITA. Accordingly, the "units" of such investment corporations, including the units of the Company, are governed by the ITA and represent the equity interests in such investment corporations, which may differ in certain material respects from the "shares" governed by the Corporation Law of Japan and representing the equity interests in Japanese ordinary corporations incorporated and operated under the Corporation Law of Japan. Investors and readers are specifically reminded to pay attention to such differences when reviewing this semiannual report and making any investment decision on or in respect of the units of the Company. "Unitholders" of the Company may be construed accordingly. Each investor and reader should consult their own legal, tax, and other advisors regarding all Japanese legal, tax, and other consequences of an investment in the units of the Company, with specific reference to their own legal, tax, and other situations, and any recent changes in applicable laws and guidelines or their interpretation.

STRENGTHS

Stable Dividends

— Actual dividend per unit for the March 2017 period:

¥8,544

 Forecasted dividend per unit for the September 2017 period:

¥8,810

Collaboration with Sponsors

— Expertise of Mitsubishi Estate Co., Ltd. and Mitsui & Co., Ltd.

is being fully utilized.

Steady Growth with Quality Portfolio

As of March 31, 2017

— Total acquisition price:

\$944,723 million

- Maintains 69 properties
- The first listed J-REIT, showing steady performance for 31 consecutive periods

Sound Financial Base

As of March 31, 2017

— Highest level of credit ratings for a J-REIT:

A+ from S&P, A1 from Moody's,
AA

— LTV (Interest-bearing debt / Total assets):

41.1%

— Long-term, fixed interest-bearing debt ratio*:

90.2%

* Long-term, fixed interest loans + Investment corporation bonds (including current portion of Long-term, fixed interest loans and Investment corporation bonds) / Total interest-bearing debt

To Our Unitholders

In the fiscal period ended March 2017, both incomes and revenues increased due to a steady rise in rental revenues from the existing buildings, as well as a decrease in interest expenses, which resulted from the benefits of low interest rates. Dividends were up 183 yen, to 8,544 yen, compared to the previous period. The occupancy rate of our portfolio at the end of the period reached the highest level of 98.8%. We will continue our efforts to focus on improving the profitability of our existing buildings through upward rent revisions, as well as to aim for stable dividend growth.

Business Performance for the March 2017 Period

Summary of Financial Results and Cash Dividends

In the March 2017 period (October 1, 2016 to March 31, 2017), Japan Real Estate Investment Corporation ("the Company") recorded operating revenues of 30, 818 million yen, increasing 0.1% on the previous period. On the earnings front, operating profit increased 1.6%, to 12,567 million yen. After deducting expenses for interest payments on loans and other costs, ordinary profit increased 2.2%, to 11,197 million yen, and profit had an increase of 2.2%, to 11,186 million yen.

Turning to dividends, the Company will make cash distributions using accounting profits based on the dividend policy outlined in Article 32-1(2) of the Company's Articles of Incorporation, in an amount that exceeds 90% of earnings available for dividends as required by Article 67-15 of the Special Taxation Measures Law of Japan. Based on this policy, keeping below the level of end-of-term unappropriated retained earnings and reserving the retained earnings brought forward, the total amount of dividends that the Company has determined to pay out is 11,186,744,640 yen for the period under review, which is a multiple of 1,309,310—the number of units outstanding as of March 31, 2017. Accordingly, the per-unit cash dividend is 8,544 yen.

Operating Environment and Performance

During the March 2017 period (October 1, 2016 to March 31, 2017), the Japanese economy continued to follow a moderate yet steady recovery, backed by improvement in the exchange rate after the US presidential election, as well as the sustained financial deregulation policies, prompting preferable business performance in the country.

In the market for leased office space, the demand for large, recently built properties remains strong mainly in central Tokyo, resulting, if moderately, in the trends of declining vacancies and increasing advertised rents. In the investment market for real estate, the continuing favorable conditions for the financing environment prompted growth in market players, such as those who took the advantages of J-REITs. The vigorous appetite for property acquisition keeps the capitalization rate at lower levels; thus, acquisitions are not straightforward in the current environment.

Under such market conditions, the Company made sound investments under the Investment Guideline of providing stable dividends to unitholders, which was set forth at the time of the Company's listing on the TSE and remains unchanged to this date. Accordingly, the Company has been able to provide dividends at 8,544 yen, an increase of 183 yen from the previous period.

In the market for leased office space in the period under review, as a result of our efforts to improve occupancy rates through meticulous property leasing, the Company successfully maintained its record-breaking level of occupancy rate, from 98.7% as of September 30, 2016 to 98.8% as of March 31, 2017.

As for external growth, on October 3, 2016, the Company acquired the Kanazawa Kamitsutsumicho Building (Kanazawa, Ishikawa Prefecture) for 2,780 million yen. This is a recently built property with a competitive edge, situated in Kanazawa, the administrative and economic center of the Hokuriku region. Elsewhere, the 31-year-old Genki Medical Plaza (Chiyoda-ku, Tokyo) was transferred on January 25, 2017 at 6,890 million yen, while the Company acquired shares of Shinjuku Eastside Square (Shinjuku-ku, Tokyo), a recently built competitive property, to boost the existing property ownership by purchasing an additional 3.6% for 6,660 million yen through an exchange transaction. This property reorganization has enhanced the quality of the Company's portfolio. As a result of the above, the Company's current share of Shinjuku Eastside Square has increased from 14.0% to 17.6%.

As for external growth, we acquired the Kanazawa Kamitsutsumicho Building and the Tamachi Front Building in the March 2017 period, in addition to acquiring additional shares of the Shiodome Building. Furthermore, we acquired additional shares of Shinjuku Eastside Square in exchange for Genki Medical Plaza through a swap transaction with Mitsubishi Estate Co., Ltd., the Company's sponsor. We will continue to adhere to a consistent evaluation criteria amid severe competition in property acquisitions as we select properties with a medium- to long-term competitive edge.

The Company also acquired the Tamachi Front Building (Minato-ku, Tokyo), which is a recently built, medium-sized property situated in the upcoming business district of Tamachi, for 6,210 million yen. The existing ownership of the Shiodome Building (Minato-ku, Tokyo) was increased by purchasing an additional 5.0% quasi-co-ownership interest of the trust beneficiary right for 10,450 million yen. As a result, the Company's current share of said property increased from 45.0% to 50.0%.

As a result of the above, the Company's portfolio at the end of the fiscal period under review, March 31, 2017, consisted of 69 properties, with a total acquisition price of 944,723 million yen. Leasable floor area stood at 835,069 m² with 1,482 tenants in total.

- Notes: 1. The part of the Jingumae Media Square Building site (acquisition price: 614 million yen) that was expropriated by the Tokyo Metropolitan Government on October 30, 2009, is included in the total acquisition price. The total acquisition price in the subsequent sections follows the same convention.
 - 2. Shinjuku South Gate Project (tentative name) (land with leasehold interest), whose building ownership was transferred on August 23, 2013, is included in the above number of properties and total acquisition price, but is not included in leasable floor area or number of tenants. Please note that Nippon Brunswick Building (land with leasehold interest) was renamed Shinjuku South Gate Project (tentative name) (land with leasehold interest) on May 15, 2017.

Finance Activities

According to its financial policy, the Company aims to operate the LTV ratio (ratio of interest-bearing debt to total assets) at 30 to 40%, and strives to maintain a sound and conservative financial profile by staggering maturities, extension of durations and diversification of stable lenders among other possibilities, taking into consideration the borrowing cost and existing relationships with lenders.

Concerning new loans related to property acquisition and the refinancing of existing loans, the Company carries out loans strategically and flexibly after giving close consideration to the above-mentioned means, as well as the possibility of repayment with funds procured from issuing new investment units.

During the March 2017 period, the Company issued private placement investment corporation bonds with DBJ Green Building Certification as a foray into the J-REIT scheme. This certification program is operated by the Development Bank of Japan Inc. ("DBJ"), with the aim to assess and certify properties for their environmental and social awareness. The proceeds partially contributed to fund the additional acquisition of interest on the trust beneficiary right of the Shiodome Building.

As a result of these financing activities, as of March 31, 2017, the Company's total interest-bearing debt was 369,000 million yen, a 12,650 million yen increase from the end of the previous period. This amount consists of long-term loans totaling 303,000 million yen (including the current portion of long-term loans totaling 46,500 million yen), short-term loans totaling 36,000 million yen, and investment corporation bonds totaling 30,000 million yen (there is no current portion of investment corporation bonds). The current LTV ratio stands at 41.1%.

The Company's credit ratings as of March 31, 2017 were as follows:

Rating Agency	Credit Rating
S&P Global Ratings Japan Inc.	Long-term: A+; Short-term: A-1; Outlook: Stable
Moody's Japan K.K.	Rating: A1; Outlook: Stable
Rating and Investment Information, Inc.	Rating: AA; Outlook: Stable

Outlook

Operating Environment

The Japanese economy is expected to follow a course of moderate recovery as a result of improving conditions for employment and income, as well as various financial policies in force. However, international factors such as policies under the new administration in the US, the Brexit negotiations and instability in Europe, as well as the resulting fluctuations in the financial and capital markets, may lead to an economic downturn in Japan, and thus it is necessary to remain vigilant.

In the market for leased office space, the demand is anticipated to endure without a sharp fall, backed by business activities continuing to thrive. While it seems unlikely that the future increase of office space supply expected to materialize in central Tokyo will bring a dramatic turn in the market, it merits close attention to discern changes, including indirect effects in surrounding areas.

Regarding the investment market for real estate, fierce competition in property acquisition and transactions carried out at higher valuation are anticipated to continue. Therefore, it is important to be highly selective in making investments while remaining proactive in search of new properties.

Property Management

Based on the conditions stated above, the Company will adhere to the following management policies in order to maintain and improve profitability.

- (i) Strengthen relationships of trust with existing tenants The Company has contracts with numerous property management companies. Each property management company has developed relationships of trust with its tenants through its daily diligence in managing its respective properties over the years. The Company will work to further solidify these relationships by anticipating tenants' needs and providing tailored services to bolster tenant satisfaction, thereby maintaining and improving occupancy rates and raising rent levels.
- (ii) Fill vacancies promptly

In cooperation with the property management companies mentioned above and their leasing brokers, the Company will actively seek the most appropriate tenants for each property, based on location and features, in order to fill current and anticipated vacancies without delay. Furthermore, the Company will work to identify additional needs for floor area among the existing tenants.

- (iii) Stabilize revenues and earnings With the aim of stabilizing revenues and earnings, the Company will endeavor to promote fixed lease agreements and secure longterm leasing with its large-scale tenants.
- (iv) Reduce management costs

 The Company has introduced sound competitive principles to
 a number of property management companies so that they
 perpetually review and improve their management systems and
 cost structures. Along with this, the Company endeavors to ensure
 and enhance tenant satisfaction.

Property Acquisitions and Sales

The Company has adopted the following policies for acquiring properties.

- (i) To access property information quickly, the Company continues to enhance its property information channels while working to develop new channels.
- (ii) In its acquisition activities, the Company continues to meticulously monitor and examine economic, physical, and legal factors, including rights-related issues, when selecting properties. In particular, with regard to the structure of buildings, the Company requires buildings to meet or exceed new earthquake-resistance standards, verifies the need for renovations by ascertaining current conditions accurately based on engineering reports, and exclusively targets properties capable of maintaining a competitive edge in terms of the facilities they offer over the medium to long term.
- (iii) In accordance with its acquisition policies, the Company shall maintain its portfolio so that 70% or more of the portfolio properties are located within the Tokyo metropolitan area, with the remaining 30% or fewer located in other major cities.

Under these policies, the Company will continue to acquire highly competitive properties. At the same time, in order to further improve the quality of its portfolio, the Company will remain open to the replacement of portfolio properties with due consideration given to timing.

Hiroshi Nakajima (Left)
Executive Director of Japan Real Estate Investment Corporation

Naoki Umeda (Right)

President & CEO of Japan Real Estate Asset Management Co., Ltd.

Financial Policy

The Company has adopted the following financial policies.

- (i) In principle, the Company shall maintain an LTV ratio below 65%. To ensure an even lower interest-bearing debt ratio, the Company adopts the conservative target level of 30% to 40%.
- (ii) The Company shall set the ceiling for the combined total of loans and investment corporation bonds at 1 trillion yen.
- (iii) When obtaining a loan, the Company shall only negotiate with qualified institutional investors (limited to those defined under Article 67-15 of the Special Taxation Measures Act) before executing a loan agreement.
- (iv) With the purpose of maintaining liquidity at an appropriate level, the Company may establish preliminary borrowing frameworks such as overdraft agreements and commitment line agreements, or may conclude preliminary contracts for loans, as needed.
- (v) The Company aims for the best possible execution of financial transactions by negotiating with numerous financial institutions.

Performance Forecasts for the September 2017 and March 2018 Fiscal Periods

The Company's forecasts for the September 2017 period (April 1, 2017 to September 30, 2017) are as follows: operating revenues totaling 31,590 million yen, operating profit totaling 12,840 million yen, ordinary profit totaling 11,550 million yen, and profit totaling 11,540 million yen. The Company plans to declare a cash dividend of 8,810 yen per unit.

The Company's forecasts for the March 2018 period (October 1, 2017 to March 31, 2018) are as follows: operating revenues totaling 31,490 million yen, operating profit totaling 12,880 million yen, ordinary profit totaling 11,610 million yen, and profit totaling 11,600 million yen. The Company plans to declare a cash dividend of 8,860 yen per unit.

Operating revenues, operating profit, ordinary profit, profit, and cash dividend per unit may vary depending on changes that may occur in the market situation.

Acquired Asset

Kanazawa Kamitsutsumicho Building

Property and Transaction Summary

Location:
 1-15 Kamitsutsumicho, Kanazawa City, Ishikawa Prefecture

Site area: 1,561.80 m²

• Floor area of building: 9,619.96 m² (Including tower type parking adjacent to the

building (118.28 m²))

Structure: Steel structure, flar roof
 Floors: Above ground: 11 floors
 Completion: August 2009
 Acquisition date: October 3, 2016
 Acquisition price: ¥2,780 million

Type of ownership: Land: Ownership
 Building: Ownership

Seller: Shimizu Corporation
 Property management Mitsubishi Jisho Property Management Co., Ltd.

company:

The Company evaluated the following two points in the determination of acquisition.

(1) Superior location

This property is located in a business center, where offices of local government and private companies in the Hokuriku district are clustered and situated along Hyakumangoku-dori, the main road of the city. In addition, a convenient bus route providing smooth access both locally as well as outside of Hokuriku has been secured from JR Kanazawa Station, the terminal station for the Hokuriku Shinkansen, the bullet train running to and from Tokyo which opened last year.

(2) Strong competitiveness

The property was built in 2009 and its building age is less than the average building age in our portfolio. The property is not only appointed with the latest facilities and equipment to meet the environmental requirements of an office, but it also possesses tower type parking that can accommodate 88 vehicles. This coincides with local business needs and will strengthen the competitiveness of the property.

Acquired Asset

Tamachi Front Building

Property management Mitsubishi Estate Co., Ltd.

company:

• Type of ownership:

The Company evaluated the following two points in the determination of acquisition.

(1) Superior location

The property to be acquired is a medium-sized, recently built property located in the Tamachi area, which attracts attention as a business base. The property offers superior traffic convenience as it is close to Tamachi Station of the JR Line and Mita Station of the Mita and Asakusa subway Lines.

(2) Brand new office building with sophisticated features

Completed in July 2014, the property is a multi-tenant office building with excellent visibility due to the curtain wall and exceptionally designed appearance. In addition, it has a standard floor with an open-plan which can be divided into two (leasable floor space is approximately 140 tsubo), and the ceiling height is 2,800 mm (OA floor: 100 mm). The property mainly uses LED lighting for both the leased and common space in response to environmental concerns. Therefore, competitiveness of the property is very high for this area.

Acquired Asset

Shiodome Building (Additional acquisition)

Property and Transaction Summary

Location: 2-20, 1 Chome, Kaigan, Minato-ku, Tokyo
 Site area: 12,054.22 m² (Total land area of the building site)
 Floor area of building: 115,930.83 m² (Total floor space of the entire building)
 Structure: Steel-framed, steel-framed reinforced concrete structure,

flat roof

• Floors: Above ground: 24 floors Below ground: 2 floors

Completion: December 2007
 Acquisition date: March 30, 2017
 Acquisition price: ¥10,450 million
 Type of ownership: Land: Ownership Building: Ownership

Share of the quasi-co-ownership: 5.0%

Changes in the Company's share of quasi-co-ownership of the building after the additional acquisition: $45.0\% \to 50.0\%$

• Seller: Mitsui & Co. Real Estate Ltd.

• Property management Mitsubishi Jisho Property Management Co., Ltd.

company:

The Company evaluated the following two points in the determination of acquisition.

(1) High competitiveness

This property is located in front of Hamamatsucho Station of the JR Line and is the south gateway of the Shiodome area. It is also within three minutes' walk from Hamamatsucho Station of the JR Line and Daimon Station of the Asakusa and Oedo Lines. In addition, it is accessible to Tokyo Station and Shinagawa Station, which is a hub station for "Shinkansen," and also to Haneda Airport (Tokyo International Airport), providing great traffic convenience.

As for other features, it is a comparatively new building completed in December 2007, and the standard floor area constitutes a large space without pillars, comprising an area of over 1,000 tsubo and a ceiling height of 2,900 mm (additional 100 mm of OA floor).

(2) Increase in share of co-ownership of the building

Since the Company's share of quasi-co-ownership of trust beneficially right in trust of this property will go up to 50.0% from the current share of 45.0% after the above acquisition, further improvement in operational efficiency and the value of the asset can be expected.

Exchange of Properties with the Sponsor

Acquired Asset

Shinjuku Eastside Square (Additional acquisition)

Property and Transaction Summary

Location: 27-30, 6 Chome, Shinjuku, Shinjuku-ku, Tokyo
 Site area: 25,320.28 m² (Total land area for the building site)
 Floor area of building: 167,245.46 m² (Total area for the building)
 * Including retail outlets in the attached building (214.27 m²)

Structure: Steel-framed, reinforced concrete structure, flat roof

Floors: Above ground: 20 floors
 Below ground: 2 floors
 Completion: March 2012
 Acquisition date: January 25, 2017
 Acquisition price: ¥6,660 million

• Type of ownership: Land: Ownership (share of co-ownership: 3.6%)

Building: Ownership (share of co-ownership: 3.6%) Changes in the Company's share of co-ownership of the building after the additional acquisition: $14.0\% \rightarrow 17.6\%$

Seller: Mitsubishi Estate Co., Ltd.
 Property management Mitsubishi Estate Co., Ltd.

Property management Mitsubishi Estate Co., Ltd. company:

The Company evaluated the following three points in the determination of acquisition.

(1) Superior location

This property is a large, recently built office building and a rare property located in Shinjuku, a world-class business district with a high concentration of commercial facilities. The property offers superior traffic convenience as it is directly connected to Higashi-Shinjuku Station of the Toei Oedo Line and the Tokyo Metro's Fukutoshin Line. Shinjuku Sanchome Station is also within walking distance. It is possible to take advantage of the well-developed traffic network from Shinjuku Station, a rail hub which boasts one of the world's highest transit riderships.

(2) Brand new office building with sophisticated features

Completed in March 2012, the property has an office building equipped with the latest specifications and its office space is approximately 1,800 tsubo per floor, one of the largest in central Tokyo. It accommodates convenient facilities for office workers such as restaurants and a fitness gym.

With the use of a double-skin façade and air barrier system, the building enhances energy efficiency and reduces environmental burdens. In addition, it has high functionality in terms of earthquake-resistance and disaster prevention since it is equipped with an emergency generator and a damping device.

(3) Increase share of co-ownership in the property

The Company owns 14% of co-ownership in the property and as it understands the characteristics and details of property management of the property, efficient property management and improvement in asset value can be expected through increasing its co-ownership ratio to 17.6% with this additional acquisition.

Transferred Asset

Genki Medical Plaza

Transaction Summary

Transferee: Mitsubishi Estate Co., Ltd.
 Transfer price: ¥6,890 million

• Book value: ¥4,776 million

• Appraisal value ¥6,890 million (as of November 1, 2016)

• Acquisition price: ¥5,000 million

Property Summary (as of January 25, 2017)

• Location: 6-5, 3chome Iidabashi, Chiyoda-ku, Tokyo

Site area: 1,052.80 m²
 Floor area of building: 6,722.02 m²

• Structure: Steel-framed, reinforced concrete structure, flat roof

• Floors: Above ground: 8 floors

Below ground: 1 floor September 1985

• Occupancy rate: 100.0%

Completion date:

Purpose of exchange of assets

Mitsubishi Estate Co., Ltd. is the transferee and transferor of both the asset to be transferred and the asset to be acquired (additional acquisition) from the exchange. By exchanging a previously built asset for a recently built asset with a competitive edge, the Company aims for the replacement of properties that will lead to the improvement of its portfolio along with maintaining and expanding its revenue base.

Acquired the Best Status, a "Green Star", in GRESB

What is GRESB?

GRESB (Global Real Estate Sustainability Benchmark) was established in 2009 by a group of European pension funds. It is an annual benchmark evaluation to assess the environmental, social, and governance (ESG) performance of the real estate sector. Major European, American, and Asian institutional investors utilize this benchmark in their investment decision-making processes. GRESB Real Estate Assessment is unique in evaluating not the individual property itself, but the environment-friendliness and sustainability approach of each real estate company and REIT.

G R E S B

Acquired a "Green Star"

In the 2016 GRESB Real Estate Assessment, the Company was evaluated highly both in Management & Policy and Implementation & Measurement aspects and acquired the status of "Green Star".

Obtaining DBJ Green Building Certification

The DBJ Green Building certification was established by the Development Bank of Japan with the aim of encouraging real estate project activities that pursue environmental and social contributions instead of focusing solely on economic performance. Green Building-certified properties are selected based on a comprehensive evaluation scheme for multiple criteria, including tenant amenities, involvement in the local community, and risk management, in addition to the environmental performance of the building. Under this program, a number of properties held by the Company have been highly rated, including Harumi Front, which received the highest rank of Five Stars, representing the first J-REIT property that has ever been honored with this evaluation.

Properties certified with DBJ Green Building Certification

Properties with the best class environmental & social awareness

Debt service coverage ratio (Times) (Note 5)	14.3	13.5	12.5	12.1	10.8	

Notes: 1. ROA = Ordinary profit \div Average of Total assets during the period 2. ROE = Profit \div Average of Net assets during the period

^{2.} ROE = Profit + Average of Net assets during the period (Annualized portion of the calculation given in Note 1 and Note 2 assumes a fiscal period of 182 days for the period ended March 31, 2015, 183 days for the period ended September 30, 2015, 183 days for the period ended March 31, 2016, 183 days for the period ended September 30, 2016 and 182 days for the period ended March 31, 2017)

^{3.} EOP equity ratio = (Net assets at the end of period \div Total assets at the end of period) \times 100

^{4.} EOP interest-bearing debt ratio on total assets = (Interest-bearing debt at the end of period + Total assets at the end of period) × 100

^{5.} Debt service coverage ratio = Profit before Interest, Taxes, Depreciation and Amortization ÷ Interest expenses

Computation Method for Determining Dividends

The Company will make cash distributions using accounting profits based on the cash distribution policy outlined in Article 32-1(2) of the Company's Articles of Incorporation, in an amount that exceeds 90% of the "amount of distributable profit" as set forth in Article 67-15 of the Special Taxation Measures Act. Based on this policy, the Company has decided that the total amount of dividends, which is set not to exceed the unappropriated retained earnings and also to secure retained earnings brought forward, is 10,947,140,910 yen for the period under review, which is a multiple of 1,309,310 the number of units outstanding as of September 30, 2016. Furthermore, the Company does not pay out dividends that exceed accounting profits as outlined in Article 32-1(3) of the Company's Articles of Incorporation.

The Company will make cash distributions using accounting profits based on the cash distribution policy outlined in Article 32-1(2) of the Company's Articles of Incorporation, in an amount that exceeds 90% of the "amount of distributable profit" as set forth in Article 67-15 of the Special Taxation Measures Act. Based on this policy, the Company has decided that the total amount of dividends, which is set not to exceed the unappropriated retained earnings and also to secure retained earnings brought forward, is 11,186,744,640 yen for the period under review, which is a multiple of 1,309,310 — the number of units outstanding as of March 31, 2017. Furthermore, the Company does not pay out dividends that exceed accounting profits as outlined in Article 32-1(3) of the Company's Articles of Incorporation.

Notes to Financial Statements

September 30, 2016 and March 31, 2017

1. Organization and Basis of Presentation

Organization

Japan Real Estate Investment Corporation ("the Company") is a real estate investment corporation formed to own and invest primarily in a portfolio of office properties. The Company is externally managed by a licensed asset management company, Japan Real Estate Asset Management Co., Ltd. ("J-Rea"). J-Rea is currently owned 90% by Mitsubishi Estate Co., Ltd. ("MEC") and 10% by Mitsui & Co., Ltd.

On May 11, 2001, the Company was incorporated with ¥200 million of original capital contribution by MEC, Tokio Marine & Nichido Fire Insurance Co., Ltd. and The Dai-ichi Life Insurance Company, Limited under the ITA.

On September 10, 2001, the Company commenced operations when the Company was listed on the Tokyo Stock Exchange as one of the first real estate investment corporations in Japan ("J-REITs"). The Company issued 160,000 units at a price of \(\xi\)506,625 per unit, generating gross proceeds of ¥81,060 million.

As of March 31, 2017, the Company owned a portfolio of 69 office properties with an aggregate of approximately 835,069 m² of leasable space.

Basis of presenting financial statements

The Company maintains its accounting records and prepares its financial statements in accordance with accounting principles generally accepted in Japan ("Japanese GAAP"), including provisions set forth in the ITA, the Japanese Financial Instruments and Exchange Law and related regulations, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

The accompanying financial statements are a translation of the audited financial statements of the Company, which were prepared in accordance with Japanese GAAP and were presented in the Securities Report of the Company filed with the Kanto Local Finance Bureau. In preparing the accompanying financial statements, certain reclassifications and modifications have been made to the financial statements issued domestically in order to present them in a format that is more familiar to readers outside Japan. In addition, the notes to financial statements include information that might not be required under Japanese GAAP but is presented herein as additional information.

As permitted under the Japanese Financial Instruments and Exchange Law, amounts of less than one million yen have been omitted. As a result, the totals shown in the accompanying financial statements do not necessarily agree with the sum of the individual amounts.

2. Summary of Significant Accounting Policies

Investment securities

Non-marketable securities classified as other securities are carried at cost. Cost of securities sold is determined by the moving average method.

Property and equipment, depreciation and impairment (except for leased assets)

Property and equipment is stated at cost, less accumulated depreciation. The cost of land, buildings and building improvements includes the purchase price of property and acquisition costs. Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets ranging as stated below:

Buildings	2-61 years
Structures	2-60 years
Machinery and equipment	2-18 years
Tools, furniture and fixtures	2-29 years

Expenditures for repairing expenses are charged to income as incurred. Significant renewals and betterments are capitalized.

The Company reviews fixed assets for impairment whenever events or changes in circumstances indicate that the carrying amount of its fixed assets may not be recoverable. According to the standard set by the Accounting Standards Board of Japan, companies are required to recognize an impairment loss in their statement of income if certain indicators of asset impairment exist and the book value of an asset exceeds the undiscounted sum of future cash flows of the asset. The standard states that impairment losses should be measured as the excess of the book value over the higher of (i) the fair market value of the asset, net of disposition costs, and (ii) the present value of future cash flows arising from ongoing utilization of the asset and from disposal after asset use. The standard covers land, factories, buildings and other forms of property, plant and equipment as well as intangible assets. Fixed assets are grouped at the lowest level for which there is identifiable cash flows that are independent of cash flows of other groups of assets.

Intangible assets

Intangible assets primarily consist of leasehold rights and easement, which are stated at cost. Amortization of a term leasehold interest for business use is calculated by the straight-line method based on the period of agreement.

Leased assets

Leased assets under finance lease transactions that do not transfer ownership of the leased assets to the lessees are capitalized and depreciated by the straight-line method over the lease term with no residual value.

Deferred charges

Investment corporation bond issuance costs are amortized using the straight-line method over the redemption periods.

New unit issuance costs are charged to income as incurred. The underwriters' economic remunerations for underwriting the offering are not recognized as new unit issuance costs in the financial statements since such costs are not paid by the Company as commission under the so-called "spread-method".

Under the spread-method, the difference between the offer price (the price paid by the unitholder) and the issue price (the price received by the Company) is retained by the underwriters as remuneration.

Revenue recognition

Revenues from leasing of office space are recognized as rent accrues over the lease period.

Taxes on property and equipment

Property and equipment is subject to property taxes and city planning taxes on a calendar year basis. These taxes are generally charged to income during the period. The sellers of the properties are liable for property taxes for the calendar year including the period from the date of purchase by the Company through the end of the year since the taxes are imposed on the owner registered on the record as of January 1 based on the assessment made by the local government. The Company pays the amount equivalent to the property taxes to the sellers applicable to the period since acquisition and includes the amount equivalent to the taxes in the purchase price of each property and capitalizes it as a cost of the property.

Consumption taxes

Consumption taxes withheld and consumption taxes paid are not included in the statements of income. The consumption taxes paid are generally offset against the balance of consumption taxes withheld. As such, the excess of payments over amounts withheld are included in Current assets and the excess of amounts withheld over payments are included in Current liabilities.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, deposits with banks and short-term investments, which are highly liquid, readily convertible to cash and with insignificant risk of price fluctuation, with original maturity of three months or less.

Hedge accounting

The Company enters into derivative transactions to hedge against interest-rate risk and other forms of risk based on the risk management policies outlined in the Company's Articles of Incorporation. The Company uses interest-rate swap transactions for hedging fluctuations in interest rates on floating-rate loans. The Company has also executed interest-rate and currency swap transactions as a method of hedging against currency exchange and interest-rate fluctuation risks. Deferred hedge accounting is generally used for such interest-rate swaps and interest-rate and currency swap transactions, and the effectiveness of hedging is measured by comparing the total cash flow fluctuation of the hedged item and that of the hedging instrument since the inception of the hedge.

For interest-rate swaps that qualify for hedge accounting and meet certain criteria provided under Japanese GAAP, however, the Company applies special accounting treatment. Under such special accounting treatment, the differentials paid or received under the swap agreements are recognized and included in interest expense of the hedged loans, and the interest-rate swaps are not required to be separately valued. For interest-rate swaps that meet the specific criteria for such special accounting treatment, ongoing assessments of hedge effectiveness are not required and hence not performed.

In addition, for interest-rate and currency swap transactions that meet certain criteria provided under Japanese GAAP, the Integrated Treatment is applied. Under such Integrated Treatment, the interest-rate and currency swaps that hedge foreign currency-denominated floating rate payments into yen-denominated fixed rate payments are treated as an integral part of the hedged foreign currency borrowing, and the loan is accounted for as a ven-denominated fixed-rate borrowing.

3. Financial Instruments

For the six months ended September 30, 2016 and March 31, 2017

1. Status of financial instruments

(1) Policies for dealing financial instruments

Concerning the financing of property acquisitions, the Company shall use several funding sources including bank loans, the issuance of investment corporation bonds and the issuance of investment units. When executing such financing activities, the Company endeavors to retain the ability to secure stable and low-cost financing by maintaining high credit ratings and thereby limiting the financial covenants that may restrict the financial flexibility of the Company. To achieve these goals, the Company intends to further develop and reinforce the confidence of debt holders and rating agencies in the Company by bolstering the capital base and controlling the loan-tovalue ratio ("LTV") at an adequate level.

In order to hedge against future interest-rate fluctuations, the Company may enter into derivative transactions, which shall be executed solely for the purpose of hedging against interest-rate fluctuation and other risks, and not for speculative purposes.

With respect to management of excess funds, as a matter of policy the Company uses time deposits as its main vehicle, while securities and monetary claims are also eligible for such investment.

(2) Characteristics and risk profile of each financial instrument and risk management system

The Company regularly re-evaluates the appropriateness and effectiveness of its risk management system in order to improve on it. The characteristics and risk profile of financial instruments and the system in place to manage such risks are as follows: The deposits, which are typically large time deposits used to manage excess funds, are exposed to the credit risk of the deposit-taking financial institutions. The Company manages credit risk by restricting the tenor of the deposit to relatively short periods and setting a minimum credit rating requirement for the deposit-taking financial institutions.

The funding proceeds from borrowings and issues of investment corporation bonds are applied mainly to acquire real estate properties and repay outstanding loans and bonds. While floating-rate short-term and long-term loans are exposed to the risk of interest-rate hikes, such risk is mitigated by the Company's low LTV and relatively high percentage of long-term fixed-rate debts within the total borrowing. The Company may also exercise hedging by means of derivative transactions (interest-rate swap transactions) in order to mitigate the risk of fluctuation concerning the floating-rate long-term loans, thereby effectively stabilizing the overall interest rates on the loans. Foreign currency-denominated loans are also exposed to currency exchange and interest-rate fluctuation risk. However, the Company uses derivative transactions as a method of hedging against these risks (interest-rate and currency swap transactions). For more detailed information on the hedge accounting method, hedging instruments, hedged items, hedge policies and the evaluation method of hedge effectiveness, please refer to the previous Section 2. Summary of Significant Accounting Policies: Hedge accounting.

Loans and investment corporation bonds involve liquidity risk at the time of maturity. To manage such liquidity risk, the Company implements measures such as (i) maintaining and strengthening its ability to access equity markets to secure funds, (ii) maintaining commitment lines with major financial institutions (There is no amount outstanding under the facility as of September 30, 2016 and March 31, 2017) and (iii) preparing monthly financial plans.

(3) Supplementary note regarding fair value of financial instruments

The fair values of financial instruments presented in this report are based on their market value, and in cases where market values are not available, reasonably calculated values are presented. Since calculation of fair value is based on certain assumptions, the fair value could differ depending on the assumptions used. In addition, the contract value of derivative transactions, which is presented in Section 4. Derivative Transactions, is not an exact representation of market risk attributable to derivative transactions.

2. Fair value of financial instruments

Fair value of financial instruments, their values carried on the balance sheets and the differences between them as of September 30, 2016 and March 31, 2017 are as follows.

The financial instruments whose fair values are extremely difficult to estimate are excluded from the following schedule (Note 2):

		Thousands of yen	
	A	s of September 30, 2010	6
	Book value*	Fair value*	Difference*
(1) Cash and deposits	16,231,988	16,231,988	_
(2) Cash and deposits in trust	6,314,725	6,314,725	_
(3) Short-term loans	(45,700,000)	(45,700,000)	_
(4) Current portion of long-term loans	(42,850,000)	(43,090,739)	(240,739)
(5) Investment corporation bonds	(20,000,000)	(21,946,300)	(1,946,300)
(6) Long-term loans	(247,800,000)	(254,805,571)	(7,005,571)
(7) Derivative transactions	_	_	_

^{*} Liabilities are shown in parentheses.

		Thousands of yen			
		As of March 31, 2017			
	Book value*	Fair value*	Difference*		
(1) Cash and deposits	15,709,586	15,709,586	_		
(2) Cash and deposits in trust	5,605,731	5,605,731	_		
(3) Short-term loans	(36,000,000)	(36,000,000)	_		
(4) Current portion of long-term loans	(46,500,000)	(46,684,630)	(184,630)		
(5) Investment corporation bonds	(30,000,000)	(31,654,880)	(1,654,880)		
(6) Long-term loans	(256,500,000)	(261,031,032)	(4,531,032)		
(7) Derivative transactions	_	_	_		

^{*} Liabilities are shown in parentheses.

Notes: 1. Measurement of fair value of financial instruments and matters concerning derivative transactions

- (1) Cash and deposits and (2) Cash and deposits in trust
 - Due to short tenor, the book values of these assets are reasonable approximations of the present value of these assets and hence used as their fair value.
- (3) Short-term loans

Since these loans' tenor is short and rates are reset at a short interval, the book values of these liabilities are reasonable approximations of their present value and hence used as their fair values.

- (4) Current portion of long-term loans and (6) Long-term loans
 - For loans with floating interest rates, since the interest rates on such loans reflect market rates reasonably well over the short term and their book values are good approximations of their fair values, the book values are presented as their fair values. (However, the fair values of floating-rate long-term loans hedged by an interest-rate and currency swap subject to integrated treatment or by an interest-rate swap subject to special accounting treatment are calculated by discounting the aggregated principal and interest on such loans, after taking into account the effect of said interest-rate and currency swaps or interest-rate swaps, using reasonable estimates of the rates that would be applicable if the Company were to refinance the existing loans for the remaining period to maturity under the prevailing market conditions as of September 30, 2016 and March 31, 2017. Such floating-rate long-term loans are presented in Section 4. Derivative Transactions.) The fair values of the liabilities with fixed interest rates are calculated by discounting the aggregated amounts of the principal and the interest of the loans by the rates that are reasonably estimated to be applicable if the Company were to refinance the existing loans for the remaining period to maturity under the prevailing market conditions as of September 30, 2016 and March 31, 2017.
- (5) Investment corporation bonds

Their fair values are based on reference prices published by a financial data provider where available. When reference prices are not available, their fair values are calculated by discounting the aggregate of the principal and interest by nominal rates assumed applicable if the loans were refinanced for the duration of the current maturity.

(7) Derivative transactions

Please refer to Section 4. Derivative Transactions.

2. Financial instruments whose fair values cannot be reliably measured

	Thousands of yen				
	As of September 30, 2016	As of March 31, 2017			
(1) Non-listed stock *1	577,168	577,168			
(2) Deposits received from tenants *2	49,727,428	50,950,892			

^{*1} With regard to non-listed stock, which does not have a quoted market price in an active market and whose cash flows are not reasonably estimated, fair value cannot be reliably measured and it is therefore presented at book value.

3. Redemption schedule for monetary claims after the closing date

4. Derivative Transactions

Total

(1) Derivatives not designated as hedging instruments

For the period from April 1, 2016 to September 30, 2016

"Not applicable"

For the period from October 1, 2016 to March 31, 2017

"Not applicable"

(2) Derivatives designated as hedging instruments

For the period from April 1, 2016 to September 30, 2016

The contract amount or the equivalent principal amount set out in the contract as of the closing date for each derivative designated as a hedging instrument is as follows.

^{*2} With regard to deposits received from tenants, which do not have a quoted market price in an active market and reasonably estimated tenor, their cash flows cannot be reliably measured and they are therefore presented at their book value.

Thousands of yen

Derivative accounting method	Type of derivative transaction	Hedged item	Contra	ct value	Fair value	Measurement
Denvative accounting method	Type of defivative transaction	r reagea item		Over one year	Tan value	of fair value
Hedge accounting Receive floating, pay fixed interest-rate swap transactions		Long-term loans	64,300,000	64,300,000	*	_
Integrated Treatment (Special Treatment and Allocation Treatment) for interest-rate	Receive floating USD, pay fixed JPY, interest-rate and currency swap trans-	Long-term loans	10,000,000	10,000,000	*	_
and currency swap transactions	actions (with initial and final exchange)					

For the period from October 1, 2016 to March 31, 2017

The contract amount or the equivalent principal amount set out in the contract as of the closing date for each derivative designated as a hedging instrument is as follows.

Thousands of ven

Derivative accounting method	Type of derivative transaction	Hedged item	Contract value Over one year		Fair value	Measurement of fair value	
Hedge accounting	Receive floating, pay fixed Interest-rate swap transactions Long-term loans		64,300,000	64,300,000	*	_	
Integrated Treatment (Special Treatment and Allocation Treatment) for interest- rate and currency swap transactions	Receive floating USD, pay fixed JPY, interest-rate and currency swap transac- tions (with initial and final exchange)	Long-term loans	10,000,000	10,000,000	*	_	

^{*} Because the derivative transactions eligible for the Special Treatment of interest-rate swaps and Integrated Treatment (Special Treatment for interest-rate swaps and Allocation Treatment for currency swaps) are accounted for as integral parts of the hedged loans, the fair value of those derivative transactions is included in that of the underlying long-term loans as of September 30, 2016 and March 31, 2017. Please refer to the measurement of fair value of financial instruments in Note 1 of "2. Fair value of financial instruments" under Section 3. Financial Instruments as well as subheadings (4) and (6) of Note 1 concerning derivative transactions.

5. Property and Equipment

Property and equipment as of September 30, 2016 and March 31, 2017 consisted of the following:

	Thousands of yen					
	As of Septeml	ber 30, 2016	As of Marcl	h 31, 2017		
	Acquisition costs	Book value	Acquisition costs	Book value		
Land	450,384,924	450,384,924	434,837,910	434,837,910

	Total		336,350,000	339,000,000					

^{*1} The average for floating interest rates is recorded as the weighted average during the period. The average is rounded off to the fifth decimal place. The weighted average for interest rates of loans for which floating interest rates were swapped to fixed rates in order to hedge the risk of interest rate fluctuations is calculated taking the effect of this swap into consideration.

^{*2} The purposes of executing these loans are to purchase real properties or beneficiary right of real estate in trust, to repay existing loans, and to fund the redemption of investment corporation bonds.

^{*3} The Company made a full repayment (¥3,000 million) before maturity on October 31, 2016.

^{*4} At the end of the period under review, these loans are accounted for under current liabilities on the balance sheets as the current portion of long-term loans payable.

^{*5} In order to hedge the risk of exchange rate and interest rate fluctuations related to foreign currency-denominated loans, the Company conducted an interest-rate and currency swap transaction, which substantially secured exchange and interest rates. Accordingly, the weighted average for interest rates during the period is calculated taking the effect of this interest-rate and currency swap into consideration.

7. Investment Corporation Bonds including Current Portion of Investment Corporation Bonds

Outstanding investment corporation bonds as of March 31, 2017 are as follows.

Securities	Date of Issue	Balance at Beginning of Current Period (¥ thousand)	Balance at End of Current Period (¥ thousand)	Interest Rate (%)	Repayment Period	Repayment Method	Use of Proceeds	Notes
4th unsecured investment corporation bond	September 29, 2005	10,000,000	10,000,000	2.56	September 29, 2025	Bullet	*1	*2
9th unsecured investment corporation bond	August 30, 2013	10,000,000	10,000,000	0.497	August 30, 2018	Bullet	*1	*2
10th unsecured investment corporation bond	March 30, 2017	_	10,000,000	0.3975	March 30, 2027	Bullet	*1	*2 *3
Total		20,000,000	30,000,000					

^{*1} The investment corporation bonds are primarily used to fund the acquisition of real properties or beneficiary right of real estate in trust, and to repay existing loans.

8. Net Assets

The Company is required to maintain net assets of at least ¥50 million, as required pursuant to the ITA.

9. Income Taxes

The Company is subject to Japanese corporate income taxes on all of its taxable income. However, under the Special Taxation Measures Act, an investment corporation is allowed to deduct dividends of accounting profits, or dividend distributions, paid to unitholders from its taxable income if certain tax requirements are satisfied. Such tax requirements include dividend distributions in excess of 90% of its earnings available for dividends for the fiscal period as stipulated by Article 67-15 of the Special Taxation Measures Act. The significant components of deferred tax assets and liabilities as of September 30, 2016 and March 31, 2017 were as follows:

	Thousa	Thousands of yen		
	For the period from April 1, 2016 to September 30, 2016	For the period from October 1, 2016 to March 31, 2017		
Deferred tax assets:				
Accrued enterprise tax	943	914		
Amortization of a term leasehold interest	56,530	61,519		
Asset retirement obligations	103,542	104,585		
	161,016	167,019		
Valuation allowance	(67,652)	(73,683)		
Total deferred tax assets	93,364	93,336		
Deferred tax liabilities:				
Asset retirement obligations	92,421	92,421		
Reserve for advanced depreciation of non-current assets	167,188	167,156		
Total deferred tax liabilities	259,610	259,578		
Net deferred tax liabilities	166,245	166,242		

^{*2} Financial covenants, such as a negative pledge, are not included in these bonds.

^{*3} Bond issuance was limited to qualified institutional investors by a private placement.

The reconciliation of tax rate difference between the adjusted statutory tax rate and the effective tax rate for the six months ended September 30, 2016 and March 31, 2017 was as follows:

	For the period from April 1, 2016 to September 30, 2016	For the period from October 1, 2016 to March 31, 2017
Statutory tax rate	34.81%	34.81%
Deductible dividend distribution	(34.77%)	(34.78%)
Change in valuation allowance	0.06%	0.06%
Others	0.01%	0.01%
Effective tax rate	0.10%	0.10%

10. Related Party Transactions

Notes: 1. Consumption tax is not included in the above amounts.

11. Segment Information

For the six months ended September 30, 2016 and March 31, 2017

Since the Company has been engaged in real estate leasing business using a single segment, segment information has been omitted.

Information on products and services

Since revenues from external customers for a single segment of similar products and services accounted for more than 90% of total operating revenues, information on products and services has been omitted.

^{2.} Transaction terms were decided based on market conditions at the time the transaction was made.

^{2.} Transaction terms were decided based on market conditions at the time the transaction was made.

Information on geographic area

- (1) Revenue
 - Since 100% of total operating revenues was generated from external customers within Japan, a geographical breakdown of revenues has been omitted.
- (2) Property and equipment
 - Since 100% of total property and equipment on the balance sheets was located within Japan, a geographical breakdown of such property and equipment has been omitted.

Information on major clients

Since no single external client represents 10% or more of the Company's total operating revenues, information on major clients has been omitted.

12. Asset Retirement Obligations

For the six months ended September 30, 2016 and March 31, 2017

Asset retirement obligations reported on balance sheets

The Company acquired Osaki Front Tower on February 1, 2011 under the term leasehold for business use agreement which, at the expiry of the leasehold, obligates the Company to restore the leased land to its original state. At the inception of a lease with such an obligation, the Company recognized an asset retirement obligation and a corresponding capital asset in an amount equal to the present value of the estimated demolition cost required for the removal of the properties located on the leased land. The present value is calculated using 2.015% as the discount rate over 42 years, which is the term of the leasehold.

Change in the amount of the asset retirement obligations as of September 30, 2016 and March 31, 2017 consisted of the following:

	Thou	Thousands of yen		
	For the period from April 1, 2016 to September 30, 2016	For the period from October 1, 2016 to March 31, 2017		
Balance at the beginning of the period	325,325	328,602		
Increase in tangible fixed assets	_	_		
Adjustment required over the period	3,277	3,310		
Balance at the end of the period	328,602	331,913		

Asset retirement obligations other than those reported on balance sheets

Under the Road Act of Japan, the Company is obligated to remove the cable lines and the accompanying equipment originally installed for preventing analog TV interference under the public roads close to Shibuya Cross Tower and to restore the public roads to their original states because analog TV broadcasting was discontinued.

Since the removal involves public roads currently in service and some of the locations of the underground structures are potentially affected by the ongoing redevelopment projects near Shibuya Station, it is difficult to initiate such removal unilaterally without involving other interested parties. Therefore, a reasonable estimate of the present value of asset retirement obligations cannot be made because the method, the cost and the timing of the removal remains uncertain.

In consideration of such uncertainty, the asset retirement obligation is not reported in the financial statements, and is instead noted herein.

13. Investment and Rental Property

For the six months ended September 30, 2016 and March 31, 2017

The Company owns primarily a portfolio of office properties in Tokyo and other prefectures in order to gain rental revenue from them. The book values on balance sheets as of September 30, 2016 and March 31, 2017 and the fair values as of September 30, 2016 and March 31, 2017 are as follows:

		Thousands of yen	
	Book value		Fair value
As of March 31, 2016	Change during period*1	As of September 30, 2016	As of September 30, 2016
861,360,496	(4,702,758)	856,657,737	1,011,368,000

	Thousands of yen				
	Book value		Fair value		
As of September 30, 2016	Change during period*2	As of March 31, 2017	As of March 31, 2017		
856,657,737	15,877,252	872,534,990	1,042,319,000		

Notes: 1. Book value on balance sheets means the acquisition cost less accumulated depreciation.

- 2. Significant changes
 - *1 As for increases/decreases for the period, the major reason for the increase was the additional acquisition of the Nishiki Park Building (¥180,157 thousand), while the decrease was accounted for by depreciation.
 - *2 As for increases/decreases for the period, the major reason for the increase was the acquisition of the Kanazawa Kamitsutsumicho Building (¥2,834,879 thousand) and the Tamachi Front Building (¥6,269,916 thousand), as well as the additional acquisition of the Shinjuku Eastside Square (¥4,719,469 thousand) and the Shiodome Building (¥10,505,287 thousand). The decrease was accounted for by the transfer of the Genki Medical Plaza (¥4,776,921 thousand) and by depreciation.
- 3. Fair values as of September 30, 2016 and March 31, 2017 are defined as the appraised values provided by an external qualified professional appraiser.

Profits and losses related to investment and rental property are listed in Section 15. Breakdown of Property-Related Revenues and Expenses.

14. Per Unit Information

The following table summarizes information about net assets per unit and profit per unit at September 30, 2016 and March 31, 2017 and for the periods then ended, respectively:

		/en
	For the period from April 1, 2016 to September 30, 2016	For the period from October 1, 2016 to March 31, 2017
Net assets at period end per unit	358,478	358,661
Profit per unit	8,361	8,543

Notes: 1. Profit per unit is computed by dividing profit by the weighted average number of units outstanding during each period. Diluted profit per unit has not been presented since no warrants or convertible bonds were outstanding during the period.

2. The basis for the computation of profit per unit is as follows.

	Thousands of yen		
	For the period from April 1, 2016 to September 30, 2016	For the period from October 1, 2016 to March 31, 2017	
Profit	10,947,485	11,186,731	
Amount not attributable to normal unitholders	_	<u> </u>	
Profit applicable to normal investment units	10,947,485	11,186,731	
Average number of units	1,309,310 units	1,309,310 units	

15. Breakdown of Property-Related Revenues and Expenses

Other rental expenses	187,565	193,836
Property-Related Profits	13,682,878	13,845,466

16. Breakdown of Gain on Exchange of Real Estate Properties

For the period from April 1, 2016 to September 30, 2016

"Not applicable"

For the period from October 1, 2016 to March 31, 2017

		Thousands of yen	
Genki Medical Plaza			
	Revenue from transfer of real estate property	6,890,000	
	Cost of real estate property transferred	4,776,921	
	Other transfer expenses incurred	71,302	
	Reduction amount of fixed assets	2,008,155	
	Gain on exchange of real estate property	33,620	

17. Changes in Unitholders' Equity

For the six months ended September 30, 2016 and March 31, 2017

Total number of investment units issuable and number of units outstanding	As of September 30, 2016	As of March 31, 2017
Total number of investment units issuable	4,000,000 units	4,000,000 units
Number of units outstanding	1,309,310 units	1,309,310 units

18. Supplemental Cash Flow Information

Cash and cash equivalents

The following table represents a reconciliation of cash and cash equivalents at September 30, 2016 and March 31, 2017:

	Thousan	Thousands of yen		
	As of September 30, 2016	As of March 31, 2017		
Cash and deposits	16,231,988	15,709,586		
Cash and deposits in trust	6,314,725	5,605,731		
Time deposits with maturities of more than three months	_	_		
Cash and cash equivalents	22,546,714	21,315,318		

19. Leases

- 1. Leased assets under finance lease transactions that do not transfer ownership of the leased assets to the lessees are capitalized and depreciated by the straight-line method over the lease term with no residual value. Such capitalized leased assets primarily consist of tools, furniture and fixtures.
- 2. The Company, as a lessor, owns office buildings under leases and earns rent income. As of September 30, 2016 and March 31, 2017, the future lease revenues under the non-cancelable operating leases are as follows:

	Thousands of yen		
	As of September 30, 2016	As of March 31, 2017	
Due within one year	19,258,762	19,584,216	
Due after one year	29,319,650	31,149,426	
Total	48,578,413	50,733,642	

20. Subsequent Events

For the six months ended March 31, 2017

Independent Auditor's Report

The Board of Directors Japan Real Estate Investment Corporation

We have audited the accompanying financial statements of Japan Real Estate Investment Corporation, which comprise the balance sheet as at March 31, 2017, and the statements of income and retained earnings, changes in unitholders' equity, cash distributions, and cash flows for the six-month period then ended and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. The purpose of an audit of the financial statements is not to express an opinion on the effectiveness of the entity's internal control, but in making these risk assessments the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Japan Real Estate Investment Corporation as at March 31, 2017, and its financial performance and cash flows for the six month period then ended in conformity with accounting principles generally accepted in Japan.

Ernst & Young Shinnihon LLC

Other Information

1. Risk Factors

The principal risks with respect to investment in JRE are as follows:

- any adverse conditions in the Japanese economy could adversely affect JRE;
- JRE may not be able to acquire properties to execute the growth and investment strategy in a manner that is accretive to earnings;
- illiquidity in the real estate market may limit the ability to grow or adjust the portfolio;
- the past experience of the asset manager (the "AIFM") in the Japanese real estate market is not an indicator or guarantee of future results;
- JRE's reliance on JRE's sponsor companies, the AIFM and other third party service providers could have a material adverse effect on business:
- there are potential conflicts of interest between JRE and its sponsor companies as well as the AIFM;
- JRE's revenues largely comprise leasing revenues from the portfolio properties, which may be negatively affected by vacancies, decreases in rent, and late or missed payments by tenants;
- JRE faces significant competition in seeking tenants and it may be difficult to find replacement tenants;
- increases in interest rates may increase the interest expense and may result in a decline in the market price of the units;
- JRE may suffer large losses if any of the properties incurs damage from a natural or man-made disaster;
- most of the properties in the portfolio are concentrated in Tokyo and the Tokyo metropolitan area;
- any inability to obtain financing for future acquisitions could adversely affect the growth of the portfolio;
- JRE's failure to satisfy a complex series of requirements pursuant to Japanese tax regulations would disqualify JRE from certain taxation benefits and significantly reduce the cash distributions to the unitholders; and
- ownership rights in some of JRE's properties may be declared invalid or limited.

In addition, JRE is subject to the following risks:

- risks related to increasing operating costs;
- risks related to JRE's dependence on the efforts of the AIFM's key personnel;
- risks related to the restrictive covenants under debt financing arrangements;
- risks related to entering into forward commitment contracts;
- risks related to third party leasehold interests in the land underlying JRE properties;
- risks related to holding the property in the form of stratified ownership (kubun shoyū) interests or co-ownership interests (kyōyū-mochibun);
- risks related to holding the property through trust beneficiary interests;
- risks related to properties not in operation (including properties under development);
- risks related to the defective title, design, construction or other defects or problems in the properties;
- risks related to impairment losses relating to the properties;
- risks related to tenant leasehold deposits and/or security deposits;
- risks related to tenant's default as a result of financial difficulty or insolvency;
- risks related to the insolvency of master lessee;
- risks related to the insolvency of a property seller following the purchase of a property by AIF;
- risks related to relying on expert appraisals and engineering, environmental and seismic reports as well as industry and market data;
- risks related to the presence of hazardous or toxic substances in the properties, or the failure to properly remediate such substances;
- risks related to strict environmental liabilities for the properties;
- risks related to the amendment of applicable administrative laws and local ordinances;
- risks related to infringing third party's intellectual property right;
- risks related to holding interests in properties through preferred shares of special purpose companies (tokutei mokuteki kaisha);
- risks related to holding Japanese anonymous association (tokumei kumiai) interests;
- risks related to investments in trust beneficiary interests;
- risks related to the tight supervision by regulatory authorities and compliance with applicable rules and regulations;

- risks related to tax authority disagreement with the AIFM's interpretations of the Japanese tax laws and regulations;
- risks related to being unable to benefit from reductions in certain real estate taxes enjoyed by qualified J-REITs;
- risks related to changes in Japanese tax laws; and
- risk of dilution as a result of further issuances of units.

2. Information Required under Article 22(2)(d) of the EU Alternative Investment Fund Managers Directive (AIFMD)

(1) Material Changes in Information Listed in Article 23 of AIFMD during the Financial Period covered by the Report (six-month fiscal period ended March 31, 2017)

As the general administrator for operation of administrative instruments and accounting, transfer agency and special accounts administrator were changed in June and October 2016, we revised the disclosure of their respective fees under the heading "Description of all fees, charges and expenses and a maximum amount which is directly / indirectly borne by the investors" (Article 23(1) (i)).

Therefore, in the section under the heading "The identity of the AIFM, AIF's depository, auditor and any other service providers, and a description of their duties and the investors' rights thereto" under Article 23 (1)(d), we added the identity of the new transfer agent and special accounts administrator (Mitsubishi UFJ Trust and Banking Corporation) and a note stating that the general administrator for operation of administrative instruments and accounting would be replaced by Mitsubishi UFJ Trust and Banking Corporation, effective October 1, 2016. Please note that such replacement has been made effective as scheduled.

3. Remuneration Policy for the Asset Manager's Directors, Corporate Auditors and Employees

Beginning April 1, 2016 and ending March 31, 2017

1. Remuneration for Asset Manager Directors

The total amount of remuneration, bonuses, and other property benefits received by Asset Management Directors from the Asset Management Company as compensation for their duties, as well as the individual amounts each Asset Management Director receives, are decided by a resolution of a general meeting of unitholders. The policy for Asset Manager Director remuneration and bonuses is as follows.

- (1) The remuneration table is determined by the Director's position.
- (2) Remuneration will be paid to full-time Directors, and will not be paid to part-time Directors.
- (3) Bonuses will not be paid to Directors, regardless of full-time or part-time position.

2. Remuneration for Asset Manager Corporate Auditors

The total amount of remuneration, bonuses, and other property benefits received by Corporate Auditors from the Asset Management Company as compensation for their duties, as well as the individual amounts each Corporate Auditor receives, are decided by a resolution of a general meeting of unitholders. The policy for Corporate Auditor remuneration and bonuses is as follows.

- (1) Remuneration will not be paid to part-time Corporate Auditors.
- (2) Bonuses will not be paid to Corporate Auditors, regardless of full-time or part-time position.

	Directors		Corporate Auditors		Total	
	Number of person(s) remunerated	Remuneration	Number of person(s) remunerated	Remuneration	Number of person(s) remunerated	Remuneration
Remuneration based on resolutions of the General Meeting of Unitholders of Asset Manager	1	¥19.5 million	0	¥0 million	1	¥19.5 million

3. Remuneration for Asset Manager Employees

- (1) Remuneration for employees of the Asset Management Company (payment period, payment method, pay raises, promotions, etc.) are stipulated by pay regulations and personnel evaluation regulations, and decided by objective evaluation of the process as well as achievements which take into account the overall corporate performance.
- (2) Monthly pay consists of base pay, work allowance, executive allowance, and overtime pay. Pay raises are based on the result of performance evaluations that take into account management results from the previous fiscal year, and are carried out in April every year. Promotions are dealt with in the same way.
- (3) As for bonuses, the base number of multiples of monthly pay as bonuses is determined in advance by qualifications of the employee. Increases (or decreases) in the amount paid are based on the result of performance evaluations, which take into account corporate performance in the previous fiscal year.

	All employees			
	N		Remuneration	
	Number of employees	Total	Fixed	Variable
Remuneration based on compensation rules	35	¥340 million	¥217 million	¥123 million

4. Conflict of Interest

There are potential conflicts of interest between the Company and the Asset Management Company with respect to remuneration for the Directors, Corporate Auditors and employees of the Asset Management Company. The Company believes that the above remuneration policy mitigates such potential conflicts. In addition, the Asset Management Company has adopted an internal set of rules that apply to all related party transactions, such as transactions between the Company and the Asset Management Company. These rules require strict compliance by the Asset Management Company with laws and regulations regarding related-party transactions. They also contain specific procedures to be followed in the event of a transaction that involves a related party, in order to implement arm's length terms.
